**VST Roadmap**

## ABOUT VST TEAM

VST team is a collection of creative, conscientious and professional people They have come together to help everyone achieve their ideal life by investing in themselves.

Due to the decentralized and anonymous nature of the world of crypto currencies, which is the basis of our activities, we are not able to publish our true identities.

We work together to achieve our great goals with trusting to each other because we are the great family of VST.

*We are proud of having a family of  
all of you*

## OUR GOALS

We will grow together

# COMPLETION OF CRYPTOCURRENCY TRAINING

Technical:  
Classic and Price Action

Fundamental:  
investigation of projects in the field of DeFi,  
Metaverse, Gaming etc.

VST team

Because we have a global attitude and we want everyone to be a member of this family, So the training will be available to users in several living languages of the world.

## VST BORN

Since mid-2020 and due to the growing movement of the crypto currency market and given what happened in the world of cryptocurrency in 2018, The need for a set of effective and focused vocational training, and of course Inexpensive and available to the public, was increasingly felt.

This factor caused the capable management team of VST to come together to meet the needs of the day And pave the way for the growth of all those interested in progress.

## NETWORK MARKETING

Given that any system for growth and sustainability needs to be known and expand its business and given the tremendous power that The essence of network marketing exists and In order to thank all of you members of the VST family for their efforts, it was decided to develop a network marketing plan for the better development and expansion of the VST family. in which each person will receive gifts from us in proportion to the amount of effort he / she makes in order to grow and expand the number of VST family members.

## SITE UPDATES

The goal of our team is to be better every day than the day before, so in order to achieve this goal, we try every day to be able to provide better services to all members of the VST family by improving ourselves.

Therefore, in line with this constant effort to improve, based on the feedback and suggestions we had from members, we decided to update our platform and add two new revenue-generating plans to the previous ones.

## INVESTMENT PLAN

The most important thing in our life is investing. Invest in ourselves and our abilities and assets. We need to invest to get rich So we decided to start a new plan to help VST family members and all those who are looking to earn more to live better lives happier, freer and better.

## INVESTMENT PLAN

Therefore, a safe and transparent plan is being designed in which you will be able to participate for any amount and with any time and it will be possible to withdraw interest and repay the original money at any time.

## EXPAND EDUCATION IN OTHER FIELDS

Given that our goal is to expand education and because people each have their own tastes and everyone is interested in a particular applied science...

## EXPAND EDUCATION IN OTHER FIELDS

Therefore, we invite anyone who can provide professional training in any field that can help others to have a better life.

Obviously, the VST team will fully support its new family members after going through the legal process and signing the contract.

## VST TOKEN

Since there is an end to everything except training, the decision of the VST management team is to be able to have permanent support to continue our journey.

So we decided to go through the next stage of our evolution by designing a token called VST Token and with the presence and support of all family members and with the official presence as a business university in the world of cryptocurrencies, we will take stronger steps to continue the clear path we have.

## VST TOKEN

This token will be provided on the Tron's blockchain and the smart contract registered in the Tron blockchain will control all transactions and other matters related to this token. The purpose and value creation of this token is to expand specialized, quality and Inexpensive education for the public and to support any project in this field.

## VST TOKEN

Purchasing a VST token by any person, whether a member of the VST family or not, is completely optional & By having a few of these tokens in your portfolio, everyone can help other members of the VST family move toward their common goals and enjoy the growth of their investment.

## VERY IMPORTANT POINT

The VST token will never have anything to do with the VST investment plan and anyone can buy it in a completely optional way or not.

**THANK YOU**
